CONTENTS

No. 1

C. LARSEN, P. KURTZHALS and M. JOHANSEN: Macromolecular prodrugs. Part IX. The release kinetics of metronidazole from various dextran dicarboxylic acid hemiester conjugates in aqueous buffer, human plasma and in pig liver homogenate	1
P. KURTZHALS, C. LARSEN and M. JOHANSEN: On the design of urokinase labile prodrugs. Effects of surfactants on surface adsorption of urokinase and comparison of methods for the determination of K_M and k_{cat}	15
M. LODÉN and Y. FAJERSON: The synthetic peptide GRF(1-29)-NH ₂ with growth hormone releasing activity penetrates human epidermis <i>in vitro</i>	27
G. ALDERBORN, E. BÖRJESSON, M. GLAZER and C. NYSTRÖM: Studies on direct compression of tablets. Part XIX. The effect of particle size and shape on the mechanical strength of sodium bicarbonate tablets	31
C. AHLNECK and G. ALDERBORN: Solid state stability of acetylsalicylic acid in binary mixtures with microcrystalline and microfine cellulose	41
H. Y. ABOUL-ENEIN: Interaction of potent muta-carcinogenic 2-aminodipyrido-[1,2-a:3',2'-d]-imidazoles with some target macromolecules by ¹ H-NMR spectroscopy	53
K. SEWERIN: Human coagulation factor VIII: purification, characterization and biological interactions	61
A. M. JOHANSSON: Dopaminergic 2-aminotetralins. Synthesis, conformational analysis, and structure-activity relationships	62
L. ANDERSSON: Biological screening and chemical studies on some Swedish marine organisms	63
M. P. PERSSON: Rate-controlled intravenous infusion of midazolam and opioid analgesics in surgical patients	64

No. 2

M. KNECZKE, L. LANDERSJÖ and P. LUNDGREN: Factors influencing the release rate of salicylic acid from hydrocarbon bases	65
H. EMILSSON and H. SELANDER: Synthesis and antihypertensive activity of substituted (2,6-dichlorobenzylideneamino) guanidines and some hydrazone derivatives of C-cyanoformamidrazone	75
H. TOMIDA, N. KUWADA and S. KIRYU: Hydrolysis of indomethacin in Pluronic F-127 gels	87

Scheele Lecture 1987

- R. W. FREI: Striving for selectivity in pharmaceutical analysis; is chromatography becoming obsolete? 97

Scheele Symposium 1987: Abstracts

- G. SCHILL: Indirect detection in reversed-phase chromatography: background, application and disturbing effects 113
- B.-A. PERSSON: Performance of liquid chromatographic separations with respect to sample handling 113
- K.-E. KARLSSON: Liquid chromatography in packed fused silica columns 114
- D. WESTERLUND: Aspects of system peaks in ion-pair reversed phase liquid chromatography 115

Short communications

- K.-G. JOSTELL: Pharmacokinetics of chlormethiazole in man and influence of altered physiological conditions 117
- A. ADEM: Characterization of muscarinic and nicotinic receptors in neural and non-neural tissue: changes in Alzheimer's disease 118
- P. FYHR: Kinetic studies on the preformulation and formulation of parenteral solutions 120

No. 3

- P. FYHR and C. HÖGSTRÖM: A preformulation study on the kinetics of the racemization of ropivacaine hydrochloride 121
- M. A. RAGGI, V. CAVRINI, A. M. DI PIETRA and L. NOBILE: Extractive spectrophotometric analysis of potassium in pharmaceutical formulations using 18-crown-6 and picrate 133
- D. A. COWAN, S. ÖZKIRIMLI and A. H. BECKETT: The identification and determination of some metabolites of trimipramine 141
- M. MAHMOUDIAN: QSAR of inhibition of monoamine oxidase by substituted phenylalkylamines *in-vitro* and in various neurons *in-vivo* 151
- H. N. BORAZAN and S. N. KOUMRIQIAN: Fluorescence study on the binding of epinephrine, norepinephrine, isoproterenol and dopamine to polyadenylic acid 163
- F. FORNI, G. COPPI, V. IANNUCELLI, M. A. VANDELLI and R. CAMERONI: The grinding of the polymorphic forms of chloramphenicol stearic ester in the presence of colloidal silica 173
- O. CAMBER: Ocular drug delivery 181

S.-O. THORBERG: Pre-clinical investigations of a dopamine autoreceptor agonist	182
A. THALÉN: Non-symmetrical pregnane cyclic 16 α ,17 α -acetals and their C(22) epimers as anti-inflammatory agents	183

No. 4-5

H. GJELSTRUP KRISTENSEN: Agglomeration of powders	187
T. SCHÆFER: Equipment for wet granulation	205
G. ALDERBORN: Granule properties of importance of tableting	229
J.-O. LINDBERG: Some experience of continuous granulation	239
J. WERANI: Production experience with end point control	247
P. C. TITLEY: Agglomeration and granulation of powders, processing and manufacturing practice	267

No. 6

B. NORÉN, S. STRÖMBERG, Ö. ERICSSON and B. LINDEKE: Biotransformation of terodiline. Part IV. Identification of unconjugated and conjugated metabolites in dog and human urine	281
H. BUNDGAARD, A. BUUR and V. H. L. LEE: Timolol prodrugs: Preparation and hydrolysis kinetics of N-benzoyl carbamate esters of timolol and related compounds	293
M. ANGBERG, C. NYSTRÖM and S. CASTENSSON: Evaluation of heat-conduction microcalorimetry in pharmaceutical stability studies. Part I. Precision and accuracy for static experiments in glass vials	307
M. HAGOS and G. SAMUELSSON: Quantitative determination of quacol A, B and (+)-fisetinidol in bark and gum of <i>Acacia tortilis</i>	321
M. OLASMAA: Neurotransmitter receptor coupling to the adenylate cyclase system	325
K. EDSMAN: Enhanced mass transport and structured diffusion-controlled convective flow	326
E. M. RYDE: Pharmacokinetic aspects of drugs targeted for the colon, with special reference to olsalazine	327

R. D'ARGY: Short-lived radionuclides and image analysis in whole-body autoradiography	328
E. ARVIDSSON: Studies of ion-pair and complex equilibria in analytical distribution processes	329
M. JOHANSSON: Bioanalysis of drugs and metabolites by liquid chromatography using coupled columns or post-column derivatization	330
R. FOLKESSON: Biosynthesis, secretion and action of neuropeptides in nerve tissue, neuroblastoma cells and leukocytes	331
G. JEDERSTRÖM: Physical and chemical properties of aerosol foams and liposomes	332
